

Charity Central Kit Quilt Show Category Descriptions 2026

This is meant to be a beginner category that shows the many types of kits produced by Charity Central. Be sure to include the Kathleen's Collection Pattern for Charity Central with your quilt when you drop it off so that it can be attached to the quilt during the show.

Quilt must be made from a Charity Central Kit or from a Kathleen's Collection Pattern for Charity Central with your own fabric. Patterns must be included with the quilt so that they can be displayed together. The patterns are available on the WSQ website and on the Charity Central Facebook page for your use.

Piecer will provide the backing and the binding. Both should be scrappy or something from your stash.

You can use free hand or computerized quilting. It must be an edge-to-edge design, and pantographs work well. Straight lines with your walking foot are considered an edge-to-edge design. No custom quilting, no ruler work.

It can be quilted by the piecer or someone else, using scrap batting. There is a list of volunteer quilters who will quilt it for you for free. Send an email to charity.central@wsqspokane.org requesting the quilter list. You are encouraged to try quilting it yourself, even if you have never done that before.

Drop off and pick up as usual. If you would like Charity Central to pick up your quilt after the show, leave your receipt with Charity Central at their Booth at the Quilt Show. Ribbons, pins, or anything else that is attached to the quilt will be returned at the January WSQ Membership Meeting.

Ribbons will be awarded by WSQ for the piecer and by INMQ for the quilter. Ribbon winners, and everyone else, are asked to present their quilts at the January Show and Tell before donating them to Charity Central.
