

Sawtooth Stars

This kit includes:

20 Sawtooth Star Blocks consisting of:

8 Star point triangles, 8 background triangles, 4 @ 2 ½" background cornerstones, and 1 @ 4 ½" center square

20 strips @ 2 ½" by WOF to frame the blocks

Stitch the Star Point triangles to the Background triangles to make 8 @ 2 ½" half square triangle blocks. Stitch two of each of these blocks together to make 4 @ 2 ½" x 4 ½" Flying Geese blocks. Stitch two of these blocks to either side of the center square. Stitch two cornerstone squares to either side of the remaining two flying geese blocks. Stitch these to the top and bottom of the center square, completing the Sawtooth Star block. This block should measure 8 ½" square.

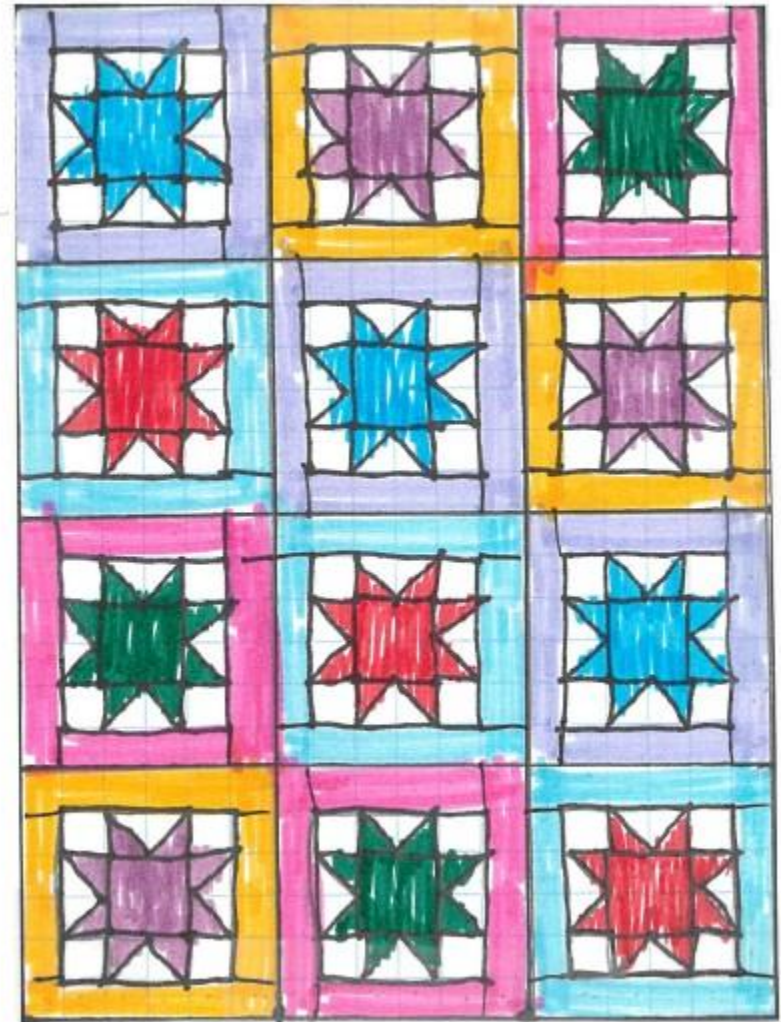

Choose a 2 ½" strip to go with each block. Cut 2 pieces at 8 ½" long and 2 pieces at 12 ½" long. If the strip is short, cut the 2 long pieces the same length, as long as you can. Trim the block down after construction. You will have to trim all the blocks to the smallest size.

Stitch the short pieces to opposite sides of the Star block, press.

Stitch the longer pieces to the other two sides, centering as necessary. Press. Trim as needed.

Lay the blocks out in a 4 x 5 grid, alternating the short and long pieces of the framing so that there are no seams to match.

48" x 60"
