

This kit includes:

12 @ 6.5" squares for background

52 light triangles for background

12 dark triangles in Color A for the center star

16 dark triangles each in Color B, C, and D for the "rays" off the center star

16 dark triangles in Color E for the borders

4 @ 6.5" squares in Color E for the outer corners

Stitch all the Color A triangles to background triangles. Press half the seams to the dark and half to the light.

Make 4 @ B/C half square triangle units. Make 4 @ C/D half square triangle units. Make 4 @ D/B half square triangle units. Make 8 @ B/background half square triangle units. Make 8 @ C/ background half square triangle units. Make 8 @ D/background half square triangle units.

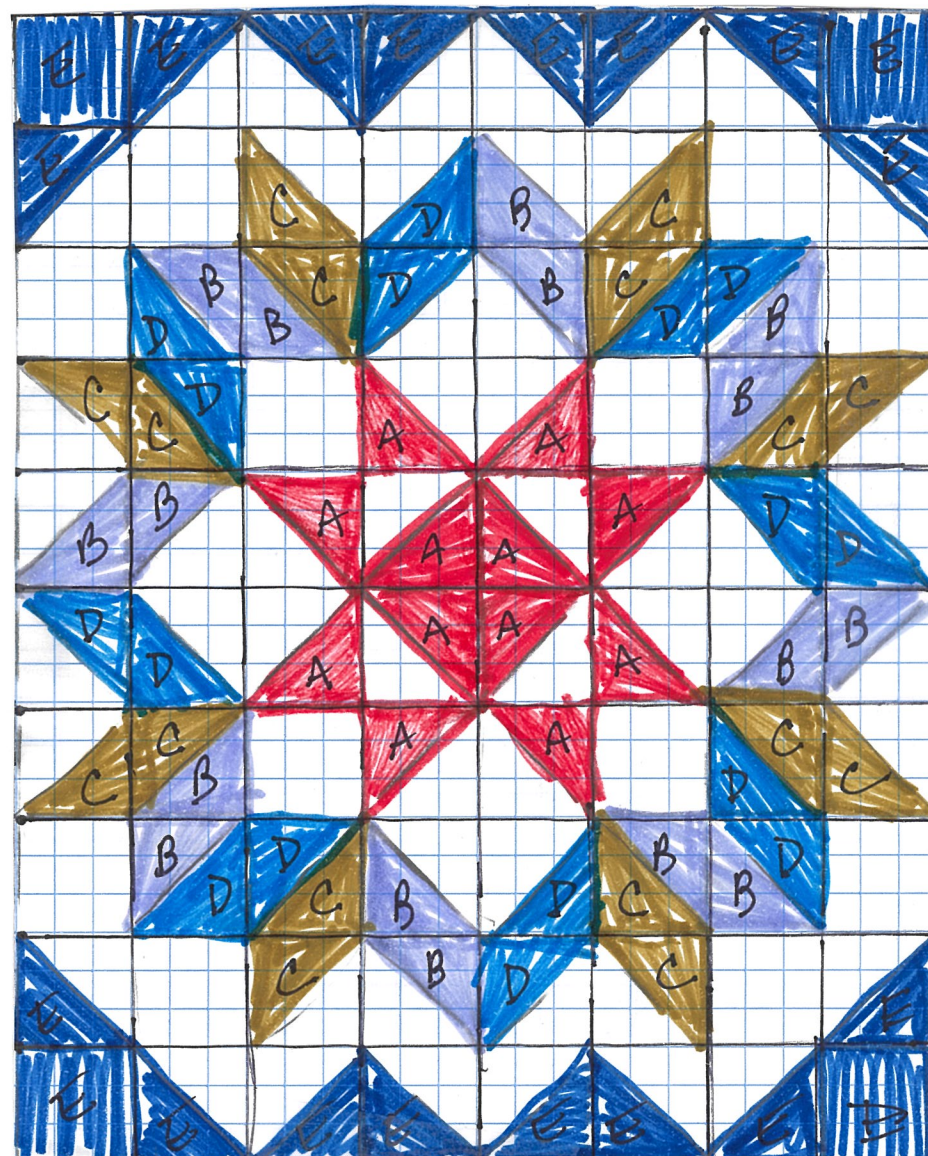

Layout the blocks in an 8 x 10 grid, referring to the picture for placement. Color A is the center star. Colors B, C, and D are the rays that come off the center star. They should stay in the same order as they go around. Be sure they are oriented so that they make diamonds.

Color E is the last round, making a top and bottom border. Pair 16 Color E triangles with 16 background triangles

Once the top is completed, stitch around the outside edge to keep the seams from popping open.
