

This kit contains:

80 light triangles, 80 dark triangles

### Barn Raising

This quilt is scrappy with assorted light and dark triangles. Stitch light to dark to make 6.5" squares. Press half the seams to the dark, half to the light so that as you sew the blocks together the diagonal seams will nest. Lay out in an 8 x 10 grid in rings, starting in the center.

### Pinwheels

This kit contains 20 sets of 4 matching light and dark triangles. Stitch the sets of 4 together to make 4 HST blocks that use the same fabric. Press half the seams to the light, half to the dark. Stitch the 4 blocks together to make one Pinwheel block. Once the Pinwheel blocks are made, lay them out in a 4 x 5 grid and stitch them side by side.

### Chevrans

This kit contains 16 dark triangles in each of 5 colors and 80 light triangles. Stitch all the triangles together, light to dark. For each color, press half the seams to the light and half to the dark. Lay out the blocks by color in rows in an 8 x 2 grid so that they form a zig zag, all the same color or fabric. Alternate the seams so that as you sew them together, the diagonal seams nest. Sew each set of two rows together. Once the 5 sets of double rows are complete, lay them out as you wish. Stitch all the rows together.

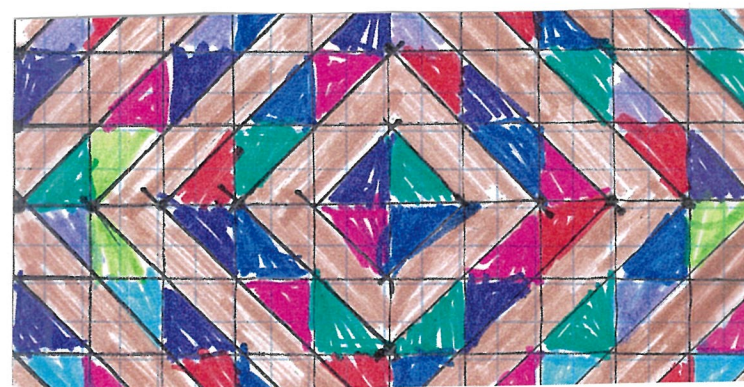

### Options

You can use any Log Cabin setting for these half-light/half-dark triangles. Run a line of stitching around the outside edge to prevent seams from popping open.

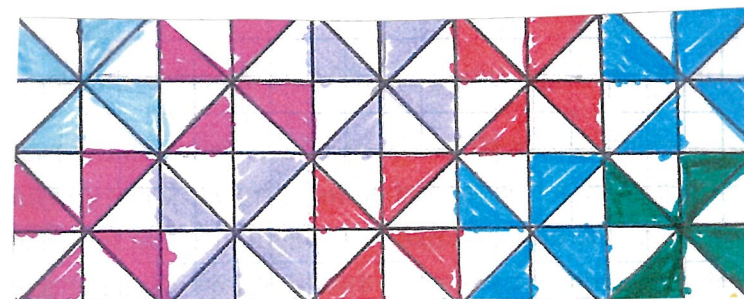

## Half Square Triangles

48" x 60"

### Barn Raising

### Pinwheels
